PROFILE

Motivated and detail-oriented aspiring web and app developer with a strong foundation in web technologies such as React.js and Next.js and roficient in building cross-platform mobile applications using Flutter. Passionate about creating intuitive, responsive, and user-friendly interfaces. Eager to apply problem-solving skills to develop innovative and impactful digital solutions.

EDUCATION

Web Development with React   10/2024 – 05/2025
Google Developers Club AASTU 🔗   Addis Ababa, Ethiopia
- A nonprofit organization dedicated to empowering high-potential university students across the country to reach their tech career aspirations, with support from Google.
- Relevant Courses: HTML,CSS,Javascript,React,Git

Bachelor of Electromechanical Engineering,   09/2021 – 06/2025
Addis Ababa Science and Technology University 🔗   Addis Ababa, Ethiopia
- Relevant Courses: Object Oriented Programming in Python,Machine Learning, Computer Vision, Digital Logic Design.

PROJECTS

E-commerce Web Application, Web Developer 🔗
- Built a responsive and user-friendly E-commerce web application for a client using Next.js, allowing users to shop easily.
- Optimized the application for performance and scalability, ensuring a seamless user experience even with a growing book catalog

Flutter Component Library , Web and App Developer
- Developed a Flutter components library where users can easily generate reusable UI components using a simple CLI command.
- The library helps speed up development, maintain consistent design, and reduce repetitive code by providing ready-to-use, customizable widgets for Flutter projects.
- It simplifies the development process by offering clean, customizable components that follow best practices, making Flutter UI building faster and more efficient.

PROFESSIONAL EXPERIENCE

Web and App Developer Intern, Gebeta Maps   06/2025 – present
- Assisted in building responsive user interfaces using frameworks such as **Next.js**, **React**, and **Flutter**.
- Worked with RESTful APIs and third-party services to integrate backend functionality into frontend components.
- Used sdk's to build interactive and creative platforms.
- Participated in standups and planning as part of the Agile development process.

Frontend Developer Intern, Kuraztech   06/2025 – present
- Built and styled responsive user interfaces using **React and Next.js**
- Participated in code reviews in the development process
- Collaborated with backend engineers to build functional sites

SKILLS

Technologies and Frameworks:

Programming Languages : Javascript , Python , Matlab	Frameworks : Next js,Flutter,FastAPI,openCV
Technologies/Tools : Git, Github	Databases : MongoDB ,PostgreSQL ,FireStore
